

S.C.O.P.E. NEWSLETTER

Friday November 18th, 2016

We are actively recruiting parents to help with class projects. Each grade level requires a parent volunteer to organize a project we will put in the live auction in April. If you are interested, contact either of us and we will put you in contact with Ashley Sokel, who is the Class Project Coordinator. Projects can be anything from handmade bookshelves from the kids, to partnering with businesses to helping kids create the project. **As of now, we only have 1st, 2nd, 3rd, and 7th grades filled!**

Our Fund-An-Item has been decided, and this year we will raise the paddle for S.T.R.E.A.M! 2016 saw SCOPE raise nearly \$30,000 to purchase new math curriculum, 60 ChromeBooks, and we still have funds to purchase Lego Robotics kits so students can learn more about computer programming and engineering. With the addition of the “R” and the “A” in S.T.R.E.A.M., we want to increase our focus on Religion and the Arts. There are additional opportunities available to us, so again we’ve decided it would be in our best interest to invest further funds to this worthy endeavor!

We have gotten a smattering of donations, a counter-top mixer, a man’s bbq basket, a gift card to Walmart, and some wine, to name a few. **THANK YOU** to those that have gotten their family donations in early! Each family is responsible for at least \$100 in donations to help support the auction.

We are also looking for someone to head up the Child Care Committee. Any ideas for change are welcome, and if two or three families wanted to join forces, that would be great as well!

Next Tag Day is December 15th! Students may bring \$1.00 to earn free dress for the day, and the Seahawks play on Thursday Night Football that day!
